Monday to Friday 9.00 am - 4.00 pm  
Saturday 9.00 am - 4.00 pm

A unique flat rooflight system that is ultra slim and aesthetically pleasing. It's contemporary style suites both a modern and period building to achieve a great look wherever it is situated. Performance of this Rooflight is industry leading in U values and weather durability which has been tested to make sure the product surpasses all current regulations and will stand the test of time. All Rooflights are pitched at 5 degrees as an industry standard to ensure minimal pooling on the Rooflight. Only top specification glass is used structurally calculated by glass engineers to ensure safety and longevity of the products.

- Thermally broken comprising of 2 x 27mm polyamide inserts
- Finished in a tough and long lasting polyester powdercoated paint
- 48mm overhang for a better weather tight seal
- Ral colour 7015m / 7016m / 9005m
- Extruded frame can accommodate from 20mm dgu to 44mm dgu plus walk-on glass
- Glass from 1.0 U value to 0.2
- Glass spec is subject to size

Standard Sizes (External manufacturing sizes)

1000mm x 1000mm  
1200mm x 1200mm  
1500mm x 1500mm  
1700mm x 1700mm  
2000mm x 2000mm

1000mm x 1500mm  
1000mm x 2000mm  
1000mm x 2500mm  
1000mm x 3000mm

Bespoke sizes also available

The Ultra-modern Lantern / Pyramid is one of the slimmest designs on the market today, providing more light transmittance than any other pyramid on the market. Traditionally, other companies use bars which makes them bulky and obtrusive and U values are also effected making this more efficient and aesthetically pleasing. Consisting of glass to glass joins with thermal foam barrier using a glass of just 1.0 U value this product will keep you warm even in the harshest of conditions.

- Thermally broken comprising of 2 x 32mm polyamide inserts
- Finished in a tough and long lasting polyester powdercoated paint
- 23mm overhang for a better weather tight seal
- Ral colour 7015m / 7016m / 9005m only
- Glass from 1.0 U value to 0.2
- Glass spec is 4mm / 22mm / 4mm heat soaked toughened glass
- Solar reflective self cleaning glass
- Ultra-Slim frame
- Sleek glass to glass joins

## Standard Sizes

1000mm x 1000mm  
1200mm x 1200mm  
1500mm x 1500mm  
1700mm x 1700mm  
2000mm x 2000mm

## (External manufacturing sizes)

1000mm x 1500mm  
1000mm x 2000mm  
1000mm x 2500mm  
1000mm x 3000mm

This is a revolutionary new design of fully integrated frameless glass balustrade system which is thermally broken and is fully integrated to fit bifold, sliding French doors and tilt and turn window systems, it has been tested to BS6180 and surpassed current regulations. This will be a choice for architects and for people who have specific design requirements, not to mention this has never been achieved in the industry until now. We believe this is the first 100% safe balustrade system using 16.8mm laminated glass with the very latest laminate technology.

- Thermally broken frames
- New glass laminate for strength
- Finished in a tough and long lasting polyester powder coated paint
- Ral colour 7015m / 7016m / White only
- 100% clear glass
- 23% thinner glass than conventional glass balustrades
- Fully tested product
- No top or bottom rails obstructing the view
- System fixed into the main structure of the building
- Glass spec 16.8mm Soteria
