

CHOICES

It's the detail that makes the difference...

ACHIEVE THE PERFECT WINDOWS & DOORS FOR YOUR HOME

he Timber Windows range provides a wide range of choices to help you achieve the perfect windows and doors for your home.

For many customers, colour is critical - with natural timber finishes, subtle shades of cream, green, blue and grey, as well as elegant black, the Timber Windows colour palette can help to highlight or to blend in. Multiple colours are also possible, with the option to finish the insides of your windows and doors differently from the outsides. We can also colour match to leading quality paint brands to complement your interior colour scheme.

Our collection of Conventional Entrance Doors comprises twenty-one styles derived from designs and configurations found in homes of character across the country. Most are available as a Town House door without an external handle, and as stable doors.

A selection of decorative glass options, based on authentic Victorian stained glass motifs, has been especially commissioned for the range. These may be selected from a variety of colour palettes to complement the door finish.

With a wide range of ironmongery styles and finishes, including our exclusive Samuel Heath range, you can choose the finishing touches that make all the difference.

For entrance doors this also includes spy holes, letter-plates, handles and knockers.

We very much hope that this brochure provides the inspiration and guidance to set you on your path to your preferred Timber Windows & Doors.

PAINT COLOURS & FINISHES

hite painted windows look traditional and smart but are not the only option available to homeowners when considering new fenestration - indeed, householders may be surprised to learn that only 40% of the windows we sell are white. Our products are available in hundreds of different shades from vibrant hews to subtle creams and greys. Multiple colours can also be combined on one item, enabling you to finish the internal frame to match your room decor. We strongly recommend inspecting samples first hand as a brochure can only provide an indicative guide. Colour swatches and samples are available from your local showroom - take a swatch away with you and offer it up to your property to ensure a good match.

STANDARD COLOURWAYS

Choosing the right windows for your home is easy with our most popular colour options (right)

RAL COLOUR OPTIONS

In addition to our standard palette our products are available in any colour from the RAL Classic range providing a further 210 shades for you to choose from.

COLOUR MATCHING SERVICE

Our close matching service to colours from the Farrow & Ball and Fired Earth paint ranges allows careful co-ordination of the fenestration to the wider interior scheme. Remember too that dual colour is also possible – with frames finished in different shades internally to externally.

STAIN OPTIONS

Due to the natural and attractive variance of the timber in colour and texture, stain finishes can vary from one piece of timber to another. Stain finishes shown are indicative of the shades available, but we are unable to guarantee a complete colour match either in installations carried out at the same time or in staged time installations.

DECORATIVE GIAZING OPT

selection of glazing options based on authentic Victorian stained glass motifs has been uniquely commissioned for our range. These may be selected in a variety of colour finishes to complement your timber front door, or add character to the fanlights of your timber windows. Our standard range is manufactured as double glazed units with UV resistant coloured polyester films applied to the outer pane.

SASH WINDOW IRONMONGERY & FITTINGS

he Timber Windows range of sash windows is amongst the most comprehensive available in the UK and enables sensitive replacement of sash windows in a wide variety of applications.

BOX SASH SIZE

Our Sash Box is available in two depths - standard at 176mm and slim sash at 142mm. The Slim Sash, at 142mm is the slimmest traditional sash window available in the UK allowing the window to finish flush with the original plaster lines without projecting into the room in most instances. The Slim Sash carries narrower double glazed units maintaining the same level of insulation by using high performance Krypton gas between the glasses. Samples of both our standard and slim sashes are available to view in most Timber Windows showrooms.

Normal Replacement Box Sash may project into the room

SPECIALIST BOX SASH BAY DETAIL

SASH SYSTEM

WEIGHTS & CHAINS

Our most popular sash window is hung on smooth running chains which is available in brass, chrome or stainless steel. Our chains not only provide a very pleasing gliding action in use but also make for an interesting design feature.

the option of hanging our sash on traditional sash cords, which are pre-stretched to accommodate the weight of double glazed units.

SASH HORNS

Decorative sash horns may optionally be fitted to the bottom of the top sash externally and/ or the top of the lower sash internally.

SPRING SYSTEM

Sash windows may also be hung on spring balances. This is particularly useful in more modern buildings which do not have sufficient rebate to accommodate a full sash box.

BOX SASH FINISHING KIT - STANDARD RANGE

A box sash finishing kit, which allows for colour matched architraves and window boards to be re-instated internally after installation is available.

CONSERVATION DOORS

Wonderfully ornate, beautifully styled and splendidly extravagant, our nine Conservation door designs are evocative of our rich British architectural heritage.

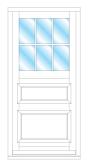

Intricate details, bold panelling and exaggerated lines set this range apart. Reminiscent of the Victorian and Edwardian eras, each of the doors is a perfect replacement for properties of these stylish periods when architectural design was audacious and lavish, or let their grandeur and form make a bold statement on a property of any period for the ultimate boost of kerb appeal.
