

TIMBER WINDOWS

DOOR PORTFOLIO

EDITION FIVE

# IT'S THE DETAIL THAT MAKES THE DIFFERENCE

With styles derived from designs found in homes of character across the country, the Timber Windows collection of entrance doors adds individuality and style.

How better to explain what a difference a beautiful real timber door can make than by showing you the homes of some of our delighted customers.

There's many decisions to make and options to consider when designing the perfect door to suit your home, enhance its value and fit your personality, we therefore present this assortment of inspiration to aid you in this important and exciting process.

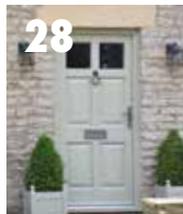

True craftsmanship and quality are at the core of every door we manufacture, with attention to detail being a hallmark we are proud of. Beautifully engineered, every door is made bespoke to your exact requirements and design choices.

This is only the beginning; a relatively small flavour of what we can do!

The possibilities and combinations of styles, colours, ironmongery and glazing are almost endless, so be sure to have a look at our Choices brochure too for even more ideas.
